Message from the Mayor and Chief Executive Officer

Our Corporate Plan is our vision for the region and provides a clear framework to guide Council activities, from planning for the long-term future, to day-to-day operations and service delivery.

Our original vision was placed down in 2011 for the next 10 years. During this time, Council has made significant achievements on the original plan and it was time to refresh the vision and its strategies. We are pleased to say after significant consultation across the region, we have refreshed our plan and strategies to better reflect these changes. These better reflect our emphasis on economic growth, our environment and tourism. In addition we acknowledge the importance of providing a range of quality infrastructure and services to better support quality of life for our residents.

Over the life of this plan Council will work toward its vision united in the mission of making our communities even better places within which to live and grow.

Bulloo Shire Council is committed to maintaining strong working relationships and partnerships with State and Federal Governments to ensure the regions infrastructure needs into the future are met. A key success in the work that we do is our collaborations with neighbouring Councils where we leverage our combined strengths to bring wealth and prosperity to the whole of the South West.

Over the coming years Council and staff will continue to work with the community to provide excellent customer service that is timely and decisive, helpful and informative and focuses on results. We do so acknowledging that there are significant challenges ahead for regional Australia especially in relation to the management of growth whilst balancing the competing demands of financial, social and environmental sustainability.

We believe this plan reflects our communities' aspirations and is a blueprint for quality of life in the Bulloo region. We are confident that Council and staff will work in partnership with our communities to deliver the priority strategies of this Corporate Plan.

This will not only strengthen our organisation but ultimately make our region an even better place to live.

Our Vision

Growth – Community – Local – Everyone

Our Strategic Priorities

Bulloo Shire Council will focus on the following strategic priority areas over the life of the corporate plan:

Community

1. Natural Environment
2. Growth to support a strong diverse Economy
3. Community Spirit and Well-being
4. Infrastructure and Services

Customers

5. Excellence in Customer Service

Organisational Capability and Sustainability

6. Strong Business Practices
7. Our Workforce
8. Asset Management
9. Governance and Financial Management

The first four priority areas relate to the community vision interpreted as part of the Bulloo Shire Community Plan 2011 – 2021. These have been refreshed in 2017 and still remain relevant today. The fifth priority relates to Council's ongoing commitment to deliver excellence in the provision of its products and services to its constituents and the remaining priority areas focus on ensuring Council has a strong organisational and financial capacity, both now and in the longer-term, to be able to delivery on the Corporate Plan and its programs and services.

Local and Regional Issues

The *Local Government Act (Qld) 2009* and *Local Government Regulations 2012* outline the statutory requirements for a Corporate Plan. In developing the Corporate 2016 - 2021, Council has considered the following local and regional issues:

Disaster Management

Council has a key role to play in disaster management and works with its Local Disaster Management Group (LDMG) to minimise the effects of hazards on our local community through a coordinated approach within the community. Council will continue to liaise with emergency service providers regarding resource planning and provision, and will strive to build resilience and capacity in our communities to manage natural or man-made adversity.

Local Economic Growth, Tourism and Environment

Council is committed to growth in order to support a strong and diverse economy. At the heart of this is the growth of the local population and local jobs. As a result the identification of economic development opportunities is a key priority for Council, especially those opportunities that help new and existing businesses grow and develop further so that we can not only enhance our lifestyle, we can ensure that we can a broader range of businesses beyond Council that are able to provide robust long term employment opportunities.

Council also acknowledges the growing importance of tourism to our local economy and wishes to provide an exceptional experience to the many visitors that come to our region. We have a unique natural environment that requires both a conservation imperative and promotion as a major selling point. In addition, it is critically importance to build structural strength to our tourism offerings with the intention to create new tourism related businesses alongside our promotion of national icons such as the Dig Tree memorial.

We also acknowledge that we are heavily reliant on the sustainability of key resources such as water and power. As a result we will also focus on innovative technologies combined with better environmental management around resources such as power and water in order to underpin our industry and regional strength.

Regional Cooperation and Services

Council sees an increasing role for regional cooperation to secure the best development outcomes for all regional communities. Council is committed to working collaboratively and sharing resources with our neighbouring Councils to ensure these assets can further contribute to stronger organisational capability for the long term prosperity of the region.

Council also acknowledges the special service relationship it has to cross border communities in northern New South Wales and SA and will continue to build on these associations to advocate and grow tourism opportunities as well as enhanced service delivery in road management and access.

Community Spirit; Wellbeing and Events

Our community spirit and wellbeing is integral to our life as an outback community. The importance of good infrastructure services planning is a key to better outcomes for wellbeing.

Council continues to coordinate and support a range of unique inter-governmental models especially in relation to higher school education and health.

Council also recognises the importance of the 'coming together' that celebrate our unique heritage through sports such as polocrosse, rodeos and social events and that these play a significant role in the maintenance of our local identity and associated skills. Accordingly Council provides ongoing support through donations and community grant programs to ensure that these mostly volunteer led events continue to enrich our lives as residents. We also support a range of regional events such as the biennial Hungerford Field Day that showcase and further develop our agricultural offerings.

Asset Infrastructure Management

Council is committed to supplying infrastructure in an efficient and coordinated manner that provided consistent, value for money services and the application of standard for infrastructure which considers the impacts of the natural environment, the amenity, and health and safety of the community. We will ensure a coordinated and integrated approach to infrastructure planning, implementation, maintenance and renewal.
